To Whom It May Concern:

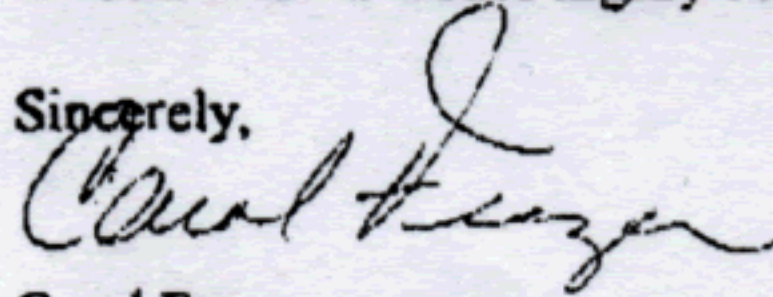

It was a heck of a week. First, the installation of piers at our home. Secondly, the three cement patches on our porch, one right under the front door. Third the crack that appeared in the center of the porch leading to the front door. All this and the sign that said "for sale" on the lawn.

That's when I found Decorative Crete Worx on the net. After making several calls to other "companies" only to be told my "job" was too small, I made one final call to Dave. He understood the situation. Recommended several options, was ready when I was and understood the term "Customer Service."

Dave arrived as promised, did beautiful work, took pride in his skills and left the job site as clean as he found it if not cleaner.

What a find! I would highly recommend Dave and Decorative Crete Worx.

Sincerely,

Carol Frazer
