

When my husband and I decided to have pets, we didn't think of all the hassle of dealing with potty training, pet hair everywhere and dirt tracks of them coming in and out of the house. We definitely needed to get rid of the carpet and hardwood flooring was an option. But looking into it more and more, we were leaning to staining our concrete. My husband found Dave on the internet and it was the best decision that he had made.

Dave came in very prepared and showed us all his work that he had done previously and was very patient in making us understand the process and how it will come out and what he suggested. He did our living room, dining room, hallway and restroom and we are very pleased with the work that he did. As soon as it was over, I had a huge smile on our faces because this was exactly what we had pictured but even better.

His professionalism within himself and his team was great. They basically left everything ready for us to move in our furniture and we didn't have to lift a finger to pick up anything left behind. If concrete staining is an option for you, Dave is definitely the guy to do the job right. Thanks so much Dave, Devin and I are very happy and pleased with the work you did.

Thanks a bunch,
Vanessa & Devin Steele
