

Remember when you could get a contractor to show up on time, be professional and count on a good job with confidence that if there was a problem he would fix it to your satisfaction. I gave up hiring work out and frankly did my own work because I couldn't trust the job would get done right. Well thanks to Dave Gonzales I have regained that memory. Dave did a beautiful job at my house, not only preparation and the job to completion but explanation of the process. He and his crew took precautions and respected my house and it's cleanliness during the job. ALL of his employees showed the same respect to me and my house. I felt so comfortable that I left on numerous occasions to run errands. He did a wonderful job in fact, I had him do a larger job on my driveway the next week and will have him back to do others as well. His prices are very fair. He is a straight shooter and will discuss colors and will make recommendations. He is going to do a job for my girlfriend and I have recommended him to others too.  
A JOB WELL DONE
