

Howdy Dallas!

I have got to tell everyone how excited I am to have found Decorative Crete Worx! After providing a very competitive bid and a comprehensive view of the work to be provided I decided to hire "DCW" to stain my concrete floors...

As a single woman remodeling a foreclosure, I have had one nightmare experience after another in regards to contractors working in my home. Sloppy workmanship, overpriced or hidden charges, stealing, workers damaging my home, etc. etc. So, when the crew from DCW showed up at my house my guard was up. But I have NEVER been more impressed! Dave and his crew arrived on time and were respectful to a fault. Everyone was friendly and looked me in the eye when speaking to me. They were all knowledgeable and happy to answer questions and explain the process in detail. And you should see my stained floors...GEORGOUS! Other contractors I had bid the project just shook their heads and told me "not to expect much as my concrete was coated in old glue and the current pattern would never go away....that I would be stuck with unwanted lines and holes". All except DCW...Dave didn't blink an eye. He worked side by side with his crew. They protected the walls & furniture in the beginning and cleaned their way out the door at the end. The floors looked like art...no signs of the previous mess at all...And if the floors weren't already fantastic enough, he also added a coat of special polish that really made the finish pop! I'm so happy about the work they did in my house I've called them back to do my pool deck, too. Can't wait...thanks Decorative Crete Worx!
