To Whom It May Concern:

This letter of reference is to give credit and praise to the work done at our home by Dave Gonzalez of Decorative Crete Worx and his employees. It is with great pleasure and ease that my husband and I write this letter of recommendation.

The experience, in our entryway, living/dining room transformation was an exceptionally positive one from start to finish. Dave Gonzalez is professional, honest and very confident and it was a delight to have him work in our home. We are impressed with his attention to detail, creativity, frankness, sense of humor and concern for our satisfaction, at all times.

We recommend Decorative Crete Worx to anyone who wants a beautiful, economical and functional way to enhance the beauty of their home. Let Dave show you what he can do! If we were building a house, from the ground up, we would have Dave do this to every room.

We are so pleased and cannot wait to show off our beautiful floor to our family and friends and when we tackle our backyard and pool project, Decorative Crete Worx is who we'll call.

Thanks Dave! You're talents will live on in our home for many years to come!
