

Hi Dave,

I believed I had the ugliest concrete patio floor & sidewalk in Texas. Dave came out three (3) times. The first time we were just trying to figure out what we wanted to do, tile or stain. Dave met with my husband the first and second time. He gladly came out a third time just to meet with me (mama). He was such a joy to talk to. He wanted me to make sure that I could see his before & after pictures to get an understanding of what to expect. After reviewing his beautiful work. I still thought there is no way this patio floor & sidewalk could turn out as beautiful as his pictures.

Well...I was absolutely wrong. I was blown away upon completion. It's a masterpiece. Dave goes beyond the call of duty to get the job done. He washed our rocks along the sidewalk (they looked awful). The border is breathtaking. He even made the entrance to the back door beautiful.

Dave's prices are just as unbelievable as he is. He is definitely one in a million. In today's society it's hard to find someone you can trust to do the job right....the first time.

Thanks for helping us turn our ugly concrete patio & sidewalk into an outdoor retreat.

The Hudsons
