

August 11, 2017

When we built our new home in 2016, we chose Dave to do the concrete stain on the floors.

The entire house is stained concrete, and we couldn't be happier. Dave is the epitome of professionalism and skill. The state of Texas he etched in our hallway is outstanding. And the border in the hallway and kitchen look great.

I would have to say that no one cares more about their work than Dave. It was truly a pleasure having him do his art in our home.

Thanks,

Amber Parker
